PROSPECTUS FOR ADMISSION TO POST BASIC DIPLOMA IN CARDIO THORACIC NURSING COURSE 2018-19

Introduction

The long cherished dream of the people of North Malabar to have a Centre of Excellence in Medical Education and its allied branches in this area has become a reality with the establishment of Academy of Medical Sciences (ACME) at Pariyaram, Kannur. ACME is a Registered Charitable Society sponsored by the Kerala State Co-operative Hospital Complex and Centre for Advanced Medical Services Ltd. (KCHC). The Medical College is blessed with a huge 8 storied Hospital Complex with 1200 bed capacity housing all clinical departments including Super Specialities.

The Diploma course in Cardiac Nursing has been planned, in order to prepare the registered nurses to function effectively in various intensive and coronary care units. The need for a special course is felt as Cardiac medicine and surgery have advanced rapidly along with the new invasive and noninvasive therapeutic and diagnostic equipments. The use of these specialized equipment is possible only if the nurse in these units have the skill to handle these equipment and in-depth knowledge to interpret the data given by the continuous invasive monitors and improving the professional standards by providing quality care to patients.

I. Philosophy

The faculty of nursing believes that nursing as a profession requires prompt updating of knowledge and skills in the areas of clinical speciality to render quality services and maintain collaboration with other health professionals.

The Post Basic Diploma programme in Cardiovascular & Thoracic Nursing prepare nurses to develop critical thinking skills, competencies and standards required for managing patient with Cardiovascular problems.

The Faculty also believes that adult learners need independence and the programme uses adult educational theories where the teacher takes the role of a facilitator.

II General Objective

At the end of the course the student will be able to develop an understanding of philosophy, principles, management, education and research in cardio thoracic nursing. Furthermore, this course will enable them to develop skills and attitude in providing competent cardio thoracic nursing care.

III Specific objectives

At the end of the course the student will be able to:

1. Describe the concepts and principles of cardio thoracic nursing
2. Perform advanced cardiac life support skills
3. Apply nursing process in caring patients with cardio thoracic diseases
4. Communicate effectively with patients having cardio thoracic problems and their family members.
5. Demonstrate skills in management of cardio thoracic services/ units.

6. Participate effectively as a member of the cardiac care team.
7. Make a plan for organization of cardiac and thoracic units
8. Conduct research in cardio thoracic nursing
9. Teach and supervise nurses and allied health workers

IV HOW TO APPLY
